Establishing a program to assist persons who bear primary responsibility for the at-home care of functionally dependent older adults, individuals with Alzheimer's disease or a related disorder, children with parents who are unable to care for them and individuals with disabilities. (Title amended June 11, 2021, P.L.52, No.20)

The General Assembly recognizes that:

(1) There is an enormous need in this Commonwealth for services to assist families that provide at-home care to functionally dependent older adults and other adults who are victims of chronic dementia such as Alzheimer's disease.

(2) Most care provided for such individuals is delivered by family members. Family involvement is a critical element for avoiding or postponing institutionalization of functionally dependent older adults or those adults who are victims of a chronic dementia such as Alzheimer's disease.

(3) Primary caregivers who provide continuous care in the home are frequently under substantial physical, psychological and financial stress. Respite care and other supportive services for the caregiver could relieve some of the stress while maintaining and strengthening the family structure.

The General Assembly of the Commonwealth of Pennsylvania hereby enacts as follows:

Section 1. Short title.
This act shall be known and may be cited as the Pennsylvania Caregiver Support Act.
(1 amended Dec. 22, 2011, P.L.526, No.112)

Section 2. Intent.
It is the intent of this act to ease the strain of caregiving and to assist adult family members and other individuals who bear primary responsibility for the at-home care of functionally dependent older adults and other adults who are living with Alzheimer's disease or a related disorder by providing resources for services such as the following: (Intro. par. amended June 11, 2021, P.L.52, No.20)

(1) Assistance to the primary caregiver to assure that supports to the care receiver are adequate and appropriate to maintain these individuals in the home.
(2) Intermittent, planned or emergency relief to the primary caregiver.
(3) Restoration or maintenance of the primary caregiver's well-being.
(4) Preservation of the primary caregiver's informal supports such as family and friends.
(5) Supportive social services to the primary caregiver.
(6) Affordable services through a cost-sharing mechanism developed by the department for those families whose household incomes do not exceed 380% of the Federal poverty guidelines.
