

Caregiver Assessment Tool Form Instructions

Introduction

The purpose of the Caregiver Assessment Tool (CAT) is to gain an understanding of the Caregiver, the Caregiver's perspective of the caregiving relationship, and the Caregiver's needs. The questions in the CAT facilitate a rapport between the Care Manager and the Caregiver. Any hardships the Caregiver may be experiencing in their caregiving role are documented in the CAT. The CAT shall be used to identify supports, training, information, and outcomes to support the Caregiver and the caregiving relationship.

Information obtained during the assessment process enables the Care Manager to identify areas of concern and ways to utilize the Caregiver's strengths while responding to their needs, in the development of their care plan. The CAT shall also be used to measure outcomes and determine the effectiveness of the Caregiver Support Program. There is an algorithm integrated into the CAT to assist with priority scoring to be utilized when an Area Agency on Aging (AAA) implements a wait list for the Caregiver Support Program.

The CAT shall be completed for the Primary Caregiver. The Primary Caregiver, as defined in Chapter VI: Caregiver Support Program of the Aging Services Policy and Procedures Manual, is the identified adult family member or other responsible party who has primary responsibility for the provision of care required to maintain the physical and/or mental health of the Care Receiver. The Caregiver shall not receive reimbursement for personally providing caregiving services to the Care Receiver and shall be actively involved/engaged with various aspects of care on a regular, but not necessarily, daily basis.

In order to fully assess the Primary Caregiver, the assessment shall take place in the caregiving environment. The Caregiver and Care Receiver shall both be present during the completion of the CAT; however, it is understood that the Caregiver may not be fully honest in the presence of the Care Receiver and some information may be sensitive and inappropriate for the Care Receiver to hear. In those circumstances, it is acceptable for the Caregiver to be interviewed in a room separate from the Care Receiver.

When logging into SAMS/WellSky, Care Managers and Care Management Supervisors shall ensure they use their individually assigned User ID's and passwords. SAMS/WellSky utilizes the User ID to record an electronic signature for an individual. The electronic signature in SAMS/WellSky indicates the information recorded is complete and accurate. The electronic signature replaces the need for hard copy signatures.

4. CARE RECEIVER'S HOUSEHOLD FINANCIAL DATA

4.A. CARE RECEIVER'S INCOME

Financial eligibility for the program is determined by calculating the total annual income of all individuals who reside in the Care Receiver's household **for the previous year**. The Caregiver Support Program Reimbursement Benefits Table (see Appendix F) is used, based on the total household income, to determine the reimbursement percentage. Upon determination of the reimbursement percentage, the Caregiver may choose not to participate in the program. In this case, the Care Manager may bypass the rest of the assessment and complete the Caregiver Assessment Summary (Section 8.B.1.) and Caregiver Assessment Outcome section (Section 8.C.1.). In this situation, the Care Receiver should have a Needs Assessment Tool (NAT) or Needs Assessment Tool – Express (NAT-E) completed to determine whether they have unmet needs that may be met through another program.

NOTE: For individuals who are self-employed and report a profit loss on their federal tax return (a negative earnings amount), enter a 0 (zero) for their gross monthly wage/salary/earnings income amount.

The reimbursement percentage will auto calculate based on the number of household residents (Question 3.C.3.) and the care receiver's total annual household income (4.C.2.).

If the Care Receiver's household has greater than six members, the Care Manager shall calculate the reimbursement percentage manually based on the instructions on the Caregiver Support Program Reimbursement Benefits Table (See Appendix F). Document the reimbursement percentage based on the Care Receiver's household income.

Caregiver Assessment Tool Form Instructions

Question 4: Enter Percentage of Total Monthly Expenses AAA Reimburses Caregiver:

Enter percentage listed in question 4.C.3. above.

Question 5: Percentage of Total Monthly Expenses AAA Does Not Reimburse the Caregiver:

The co-pay percentage will auto calculate based on the number of household residents (Question 3.C.3.) and the total annual household income (4.C.2.).

If the Care Receiver's household has greater than six members, the Care Manager shall manually calculate the reimbursement percentage based on the instructions on the Caregiver Support Program Reimbursement Benefits Table (See Appendix F). Document the reimbursement percentage based on the Care Receiver's household income.

Question 6: Based on the calculated reimbursement percentage, does the Caregiver wish to continue with the assessment for the Caregiver Support Program?

Select Yes or No. If the Caregiver does not wish to continue with the assessment, document details in Notes and continue to the Caregiver Assessment Summary (Section 8.B.1.) and Caregiver Assessment Outcome section (Section 8.C.1.).

7. CAREGIVER'S WELL-BEING

7.A. CAREGIVER'S WELL-BEING

This section assesses how the Caregiver is adjusting to their caregiving role, coping with their caregiving-related responsibilities, and records what outcomes the Caregiver desires. This section assists the Care Manager with understanding the Caregiver in the caregiving role and identifying services and supports, such as respite or support groups, and facilitates discussion about such services and supports.

This section is also used to measure outcomes to determine effectiveness of the Caregiver Support Program.

The questions in this section may be sensitive and inappropriate in the presence of the Care Receiver. It is acceptable for the Care Manager to interview the Caregiver in a room separate from the Care Receiver.

Question 1: Do you find it difficult to provide care?

Select No or Yes. If Yes, document details in Notes.

NOTE: The Caregiver may report physical or emotional difficulty, due to reasons related to the Care Receiver.

Question 2: On a scale of 1-5, are you concerned with your ability to provide care? (Document details in Notes)

Select the Caregiver's response. Document details in Notes.

Caregiver Assessment Tool Form Instructions

Document all activities in which the Caregiver is participating.

The Care Manager should recognize if the Caregiver is or is becoming isolated due to caregiving responsibilities and may use the response to discuss the importance of using respite services or attending support groups.

Question 11: What do you do to cope with being a caregiver?

Document the Caregiver's reported coping strategies.

The Caregiver may not be able to identify how they cope with situations. However, the Care Manager may recognize coping strategies the Caregiver utilizes during discussion throughout the assessment process. The Care Manager can identify and process with the Caregiver the approaches which were recognized.

Question 12: What are you doing well as a caregiver?

Document the Caregiver's reported strengths. The Caregiver may not be able to identify strengths. However, the Care Manager may identify strengths during discussion throughout the assessment process and should discuss observed strengths with the Caregiver.
